

Log Report – Team 6

Meeting Time:

1 hour each 3 days per week. Also, if we have good idea, we used discord to express our thoughts.

Rationales Behind Changes on Plan and Big Design Decision:

Changed the final big user story to be less of user persistence and more of productivity feature. Such as adding ranking feature that changes the color of the GUI based on the score, and progress chart to check the productivity of the day.

Concerns with the Project or Group Members:

Concerns for the project is that our project still does not support mac OS, and we still do not know what the problem behind this is. On the other hand, window OS, our project runs fine.

We have concerns for the group's members which is one of our group members drop the course after iteration 2. He implemented one of the features before but since he left, someone need to finish his part. But since he finished the major portion of the feature, we decided to just leave it as it was.

Task Assignments:

Taehyun Kim – Refactoring login feature and make more test cases that is involved with database.

Ted Lee – Implementing new user story, score chart (progress chart), and connect the note with database.

Abhishek Lal George – Implementing new user story, music player.

Anthony Ma – Implement the ranking feature, and refactoring score counter feature and connect them to the database.

Kyriakos Anthony – Refactoring due dates and priority feature and connect Todo list and the due dates + priority with database.

Development Task:

Taehyun Kim – Login

Ted Lee – to do list, note, score chart.

Abhishek Lal George – Music player, priority

Anthony Ma – Score counter

Kyriakos Anthony – Due dates

Development Time (Development and Testing)

Time Originally Allocated:

- Login: 10 - 11 weeks
- to do list: 10 - 11 weeks
- note: 5 weeks
- score chart: 5 weeks
- Music player: 5 weeks
- Score counter: 5 weeks
- Pomodoro Timer: 5 weeks
- Due dates: 5 weeks
- priority feature: 5 weeks

Actual Time spent:

- Login: 9 weeks
- to do list: 11 weeks
- note: 2 week
- score chart: 2 week
- Music player: 3 weeks
- Score counter: 2 week
- Pomodoro Timer: 1 week
- Due dates: 3 weeks
- priority feature: 2 weeks
