

Bugs and issues reports

Problem Report #1

Reported By: Anthony Ma

Date Reported: 2024/03/24

Component Name: To-do list

Version identifier: ITR2

Configuration: Pre-existing user in the database with assignments in their to-do list

Report type: Design Issue

Can reproduce: yes

Severity: severe

Priority: High

Problem summary: Items in the to-do list, along with the score and rank are not stored in the database and cannot be retrieved.

Problem description and how to reproduce it: When an existing user logs in, their to-do list and score are not stored in the database and cannot be retrieved when logging in again. To reproduce this, log in to database with an existing user that already has assignments completed in their to-do list.

Suggested fix: Implement the database in both the to-do list and score component so that when logging in, the information can be retrieved.

Status: Open

Problem Report #2

Reported By: Anthony Ma

Date Reported: 2024/03/24

Component Name: Due date

Version identifier: ITR2

Configuration: After a user has logged into the app and is on the to-do list page

Report type: Design Issue

Can reproduce: yes

Severity: Minor

Priority: Low

Problem summary: No option to list an assignment without a due date.

Problem description and how to reproduce it: For tasks or assignments that do not have a set due date, there is no option to list the task but without a due date. This can be reproduced by attempting to create a new assignment.

Suggested fix: Implement a button to assign a no due-date status.

Status: Open

Problem Report #3

Reported By: Anthony Ma

Date Reported: 2024/03/24

Component Name: Due date

Version identifier: ITR2

Configuration: A user is logged in with several assignments in their to-do list

Report type: Design Issue

Can reproduce: yes

Severity: Minor

Priority: Medium

Problem summary: No option to change the due date of an assignment.

Problem description and how to reproduce it: For tasks or assignments that have been created, the user cannot change the due date if the user's assignment due date was extended or shortened. This can be reproduced by attempting to create a new assignment.

Suggested fix: Implement a feature to change the due date of a specific assignment or task.

Status: Open
